THE FLYING SCOTSMAN, British-owned exhibition train stops briefly at Santa Fe Depot on its way to Slaton. The large crowd of train fans of all ages who waited for a glimpse of the coal-burning steam locomotive

was probably the reason for the Scotsman's unscheduled stop in Cameron Monday. The unique train was enroute from Houston, the last stop on a 3,000-mile tour of the eastern United States.

With F.M.L.

It is interesting how "sharp" young men are when logic brings them into agreement with older men.

110-110-110

It is equally interesting how age presumes over mileage when the latter, by broad acknowledgment, can mean experience without seniority.

Yes, your Herald is read in Austin and Washington, like many other papers, if that is news. Lying one of the oldest newspapers in the Southwest, it naturally holds, if nothing more, the curiosity of many who seek after antiquity. Herald antiquity is somewhat different. We can say your Milam newspaper for 119 years (and therefore the reason for this numbered column) is read in high places.

We spread out some of the magazines we read, without noting exchange newspapers, before a civic club addressed during a recent year. Listed, among others, were:

"European Community", a publication of Common Market countries; "Texas Business Review"; "Atlas", a digest of world press commentary; "Columbia Journalism Review"; "Publisher's Auxiliary"; "Editor & Publisher"; "The American Press"; "Journal of Data Management"; and a number of trade publications read in many newspapers. The stack is tall.

It may be less of a surprise that Herald comment has some authority and more of a surprise that a semi-weekly newspaper would delve beyond Texas-size problems.

110-110-110

We are convinced neither The

Times of New York or Los Angeles nor any name newspaper in any way monopolizes insight in print, any more than TV network commentators hold some Olympian view more apt or more incisive. They have more time, perhaps, but they have only the same sources.

We tire of what Scotty Reston thinks or of what William Buckley articulates. And in their way, they are tops. But they fill a certain amount of space a certain number of times, each week, just as TV commentators fill so much time so many days.

This country's communications focus indeed is compelled to move with political, economic and ecological influence and, regardless of Washington politics or New York corporate power, this orientation is moving west and, likely, south.

Ticket Sale Starts For Annual Scout Recognition Banquet

Tickets will go on sale Saturday for the annual Texas District banquet for Boy Scouts, leaders and friends. Set for December 9, the banquet will be held at Rockdale Elementary School auditorium.

Guest speaker will be Rev. Richard Freeman of First United Methodist Church in Waco, former Cameron pastor, who has been a Scout or Scouter since 1946.

District Scout Executive Ron Derry said reservations for the banquet should be made before December 5. Tickets will be available at \$2 each from any Texas District committee member, unit leader, or Derry.

The banquet is held each year to recognize unit leaders and den mothers who work for successful Scouting. Special presentations will be made that night.

Mrs. Miller Hired As Program Aide

Mrs. Nona Miller was hired Monday as program aide for the county Emergency Food Program. She will officially begin work on December 1.

County Judge O. B. Harden said the program Advisory Committee was "flooded with applications" after a news article describing the program aid job appeared in The Herald last week.

Mrs. Miller is the former Nona Weems of Cameron. She has been living in Houston and recently returned to Cameron. Her office will be located in the commodity distribution center in Cameron.

'SCOTSMAN' STOPS HERE FOR CROWD

A delighted crowd was waiting to welcome "The Flying Scotsman," touring British train, when it came through Cameron Monday about 12:45 p.m. and the engineer obligingly stopped for a few minutes at Santa Fe Depot.

Many youngsters were among those who waited near the depot nearly an hour, ducking intermittent showers, for the coal-burning locomotive and nine cars.

Owned by Alan Paegler of England, the train was on its way to Slaton for storage after making a tour of the eastern United States which began in Boston and ended in Houston. A tour of the western states is planned for next spring.

Several of the cars pulled by the steam locomotive house exhibits of British products, however the short stop did not include a tour for Cameron spectators.

Traveling through Central Texas at about 45 miles per hour, the Scotsman reportedly was the first steam engine to go 100 miles an hour between London and Edinburgh.

"It's been a long time since I've seen or heard a train like that," one bystander said as the clanging bell, hissing steam, and hoarse whistle toots of the departing Scotsman raised nostalgic echoes along Cameron's railroad tracks.

Chamber Barbecue Fetes Highway Men

District and local highway officials will be honored tonight (Thursday) at the annual barbecue hosted by Cameron Chamber of Commerce highway and good roads committee.

The informal dinner will start at 7:30 p.m. at Methodist Fellowship Hall, with highway officials attending from Bryan, Hearne and Cameron.

"This has been a successful program for many years," said LaVer McKinney, chairman of the Chamber committee, "and has been a great benefit in keeping local citizens informed as to plans for highway improvements and what construction is underway."

Song Writer's Story

Odd Jobs To Top Tunes

More than 300 hit songs to his record and a book with a spring publishing date, a one time odd-job sign painter returned to Cameron recently to tell how the wheels of fortune had turned.

When A. L. Owens, a down-on-his-luck guitar player, painted the big green, red and white sign on the side of the Baskin sign, he recalled on an impromptu visit at the Baskin office.

Now he is the author of such tunes as "Johnny One Time" recorded by Brenda Lee; "True Love Travels on a Gravel Road" recorded by Elvis Presley; "All I Have to Offer You Is Me" recorded by Charlie Pride; and "The Conspiracy of Homer Jones" recorded by Dallas Frazier.

Milam, Robertson To Talk 'Day Care'

County Judge O. B. Harden Wednesday advised The Herald a Cameron Day-Care Center committee will meet with an CEO group from Robertson County December 1.

His announcement followed a meeting Tuesday afternoon of ministers, social workers and laymen discussing a day-care center in Cameron at First Presbyterian Church.

The group heard Ronald Moon, associate director of Bell County's Mental Health and Mental Retardation Center, explain the possibilities beyond day-care service for pre-school children.

Following Moon's remarks, the group discussed the direction a Cameron Day-Care Center might take, starting with an initial baby-sitting-type service in a Church building and later including social and psychological services for pre-school children.

The group hopes to establish a 30-child day-care center, according to Rev. Wirt Skinner, moderator of the group Tuesday. Bill Harlan, of Cameron, is lay chairman.

Moon explained how Cameron through Milam County participation might enable a regional designation for the Bell County center and become eligible for federal funding of staff services to Milam County.

The alternative is a regular day-care center, financed through various sources of church, city, private and county contribution.

The Bell County center is a \$69,000 operation which provides three Bell centers with psychiatric, medical and dietary consultation. Three Belton, Temple and Killeen day-care centers.

GAS EXPLOSION BLAMED

Investigation into the explosion and fire that destroyed the Seth Dees home at 1603 N. Davis last week was closed and cause was listed by Sheriff Carl Black as gas explosion. Dees died in an early morning fire November 11.

The Cameron group has received commitment for use of a building from First Methodist Church as a center. Funding for a start is the major problem, Skinner said.

Day-care centers operate about 10 hours a day, almost year round, to care for pre-school children of working mothers. Social workers advised Tuesday there were dozens of children whose mothers would use such a day-care center, allowing them to work in local factories and improving their family incomes.

"This is one of several advantages to a day-care center here," Rev. James Lafferty said Tuesday. The group listened to Moon's recommendations and planned additional local meetings.

Present were: the Revs. Bill Tomlin, Alvis Coleman, Don Marquart, Lafferty and Skinner; Judge Harden, Mrs. Betty Humble, CISO social worker; Mrs. Mildred Barker, of Rockdale, and Miss Shirley M. Woods, Cameron State Welfare Dept. social workers.

Poage To Speak At Gause Post Office Dedication Sunday

Dedication ceremonies for the new Gause Post Office will start at 2:30 p.m. Sunday with Cong. W. R. Poage delivering the dedicatory address.

Cameron Postmaster Narvie Caperton will introduce Poage, F. E. Haertig, regional postal service officer, will be introduced by Temple Postmaster Opal Robertson.

Senators Ralph Yarborough and John Tower have been invited, according to Gause Postmaster O. L. Harlan, and many out of town postmasters are expected to attend.

"Open house will be held following the dedication in order that you might see our new facilities," Postmaster Harlan said. "We hope that you will share our pride in the new postal facility in Gause."

City Offers 19.58 Rate Increase To Lone Star Gas

By Councilmen . . .

Gas Rate Debate

The 19.58 percent increase in City natural gas rates offered Lone Star Gas Company Tuesday by City Councilmen follows a pattern being set by other Texas cities. Councilmen earlier had decided to wait on making a decision until they saw what other cities, especially, Temple, were doing about the state-wide request for rate increases.

Last week Temple was notified that its offer of 19.58 percent increase has been accepted by Lone Star Gas Company, which had asked for 25 percent.

Mayor E. A. Perrin told councilmen Tuesday that according to information he had, if a city refused to grant a rate increase, or offered a small increase, then Lone Star could appeal to the Railroad Commission.

In that case, the Commission decision could grant the gas coming of increase on the statement presented by the city.

E. L. Edwards, local Lone Star Gas office manager, told Council-

men that so far, about 40 towns had granted the full percentage requested by the Company, while others were offering a somewhat smaller amount.

Voting for the 19.58 percent offer were Councilmen Starrett Hickman, Lester Turner, and Lawrence Zolt. Negative votes were cast by Councilmen Bob Clark and Bob Wells.

Wells first made a motion to offer the gas company a 10 percent increase. Motion died for want of a second. Then Clark motioned to offer 15 percent and Wells seconded. The motion was defeated, 3-2.

Edwards said he would notify the Company of Cameron's offer and will report on acceptance or rejection at the December 2 Council meeting.

If Lone Star Gas accepts the increase offered by the City it will be at least 60 days after the meeting before any new rate goes into effect.

Clark and Wells based their arguments against the higher rate of increase on the statement presented by Lone Star in their request.

Wells said he was not satisfied with the figures submitted to the City in the statement, and asked Edwards if any additional information could be supplied.

Edwards said no, that the same information was submitted to each city.

Clark said he felt the same as Wells, that the figures were "too high."

Turner said he favored offering the same increase as Temple offered, adding that many things had doubled in price since the 1960s.

Discussion continued, with Councilmen Turner, Hickman and Zolt favoring the 19.58 offer, and Clark and Wells in favor of making a smaller offer.

Mayor Perrin finally asked "Are we ready?" and the motions followed, with more discussion in between the first two and the final one.

Rylander Burned In Trash Fire Accident

Ray Rylander was hospitalized Saturday with second and third degree burns on his neck, shoulder and right ear received about 5 p.m. while burning trash at his home on the old Maysfield Rd.

He is reported in good condition and is expected to be released from the hospital by the weekend.

Rylander, 16, is a junior at Yoe High. He is the son of Mr. and Mrs. Lewis Rylander.

Judge Says Farm Must 'Go Big ...'

County Judge William C. Black, former general counsel of the Agriculture Committee, U.S. House of Representatives, Wednesday said that "agriculture must go big and must remain in the world market."

Speaking before Cameron Rotarians, Judge Black, formerly of Cameron, said critics of American agriculture programs don't realize the U.S. has \$6.5 billions export exchange, more than any other segment of the economy.

"But we have only 31 congressional districts left in the United States where 25 percent or more of the constituents live on the farm," he emphasized.

The U. S. is not farm oriented and the trend is accelerating in an era when another 100 million people will live in this country during the next generation, he said.

He predicted agriculture programs will remain substantially the same for the next few years, but other federal programs will see

STREETS, DOGS, LAWSUIT ON LONG AGENDA

Cameron City Council voted 3-2 to offer Lone Star Gas Company a 19.58 increase in city gas rates at its regular meeting Tuesday night. The company had requested a 24.76 percent increase on October 7.

Discussion and motions preceding final vote occupied the first hour of the two and one-half hour meeting. See related story, this page.

In other business, Council heard Streets Supt. J. B. Earle report increasing demands on trash and garbage pickup in the City and Police Chief John Shearin report on dog catching and his department's need for another policeman.

Need for a larger pen to house dogs picked up by the dogcatcher was met by Council approval of a motion to enlarge the present pound to 25 - 30 dog capacity, and to dispose of unclaimed animals in the most practical and humane way.

The second long discussion of the night was with Councilman Bob Wells' question about why a program for street maintenance is not followed in the city.

Wells said it would be cheaper to do preventive maintenance than "the way we do it now," and asked why a maintenance program was not being followed, if the City had one.

Mayor Perrin said he wanted to "come to the defense of Mr. Earle" and told Wells he was a "perfectionist - you want things just exactly right."

Wells interrupted the Mayor to say "no" then Perrin said the City would need at least five more men for year-round street maintenance. "We just can't do everything that's wanted or expected. We have to live within our budget."

"We're spending more the way we're doing," Wells said, and added that the problem was discussed by the Council a year and a half ago, and he thought a program had been set up at that time.

Wells added that he had always discussed things on "an objective basis" before the Council. He said "I will confine my remarks to problems and I hope you do the same."

During the discussion Councilman Lawrence Zolt said "we have overburdened Earle."

Mayor Perrin said the paving program to start next year had been planned, and since "it is impossible to do both, we have to decide which is most important." See GAS Page 4

Three-Car Accident Damages Vehicles

Charges of driving while intoxicated were filed in Milam County Court against Jody W. Kenney of Cameron following a three-vehicle accident Saturday night.

According to police reports, Kenney's 1967 Chevrolet Camaro turned onto North Houston off of West 5th Street and struck a parked car owned by Mrs. Bill Marek of 406 North Houston about 7 p.m. Saturday.

Kenney's vehicle went into a lot across the street then came back into Houston, traveled on to Fourth St. (U.S. 190) and collided with a car driven by Mariano De La Rosa.

No injuries were reported but police estimated damage to Kenney's car at \$1200, Mrs. Marek's at \$200, and \$165 on the third car.

The hostess served a salad plate and coffee to the ten members present.

Vietnam RN To Speak At Rogers School Program

ROGERS

The Texas Health Careers Program will stage an assembly for the students of Rogers High School Friday, Nov. 21 at 8:45 a.m. in the school cafeteria.

A unique presentation, this assembly is designed to introduce students to the opportunities which await the health-care professional of tomorrow. The need for health manpower in Texas is great. Statistics indicate that 50,000 qualified health personnel will be needed by 1975 to fill vacant paramedical seats.

Speaker for the assembly will be Gerald Spraggins, R.N. A veteran of Vietnam, first male graduate of the Methodist Hospital School of Nursing in Dallas, and former member of the Texas Health Careers traveling caravan show, he will speak concerning importance of the male's role in the disciplines of Texas health care.

The Texas Health Careers Program is affiliated with the Texas Hospital Association. Alfred Heijl is president and school nurse, Mrs. Janice Jackson is sponsor of the Rogers chapter of Medical Careers Club.

CARD OF THANKS

Words cannot express our sincere gratitude to all who offered their sympathy personally, through flowers and food in the recent deaths of our loved ones, Raleigh L. Storey, Mr. and Mrs. W. W. (Happy) Storey. We would especially like to thank the Baptist Churches of Cameron and Marlow for their kind consideration of our family, the Rev. and Mrs. James E. Lafferty for their consoling message in word and song, and the Green Funeral Home. We would also like to thank Mrs. Anton Macek for opening her home to us, Mrs. Mattie Baggerly for her thoughtfulness and help in so many ways. And to all the many, many others who helped us through this time of sorrow.

Alcoa Names Eight New Line Foremen At Rockdale Works

Eight new Line Foremen in the Potrooms have been named at Alcoa's Rockdale Works, it was announced this week by Homer Bowser, production manager. All the promotions became effective November 1.

The new foremen are: Otto L. Brogger, Rudy J. Grossman, Jr., William E. Korenek, and William E. Stauffer all of Rockdale; Robert A. L. Clayton of Milano; Woodrow W. Brewer, Jr. of Lexington; Joe R. Green from Taylor; and Ted A. Gaines of Holland.

All eight completed a foreman training course conducted at the works during October. The course, coordinated by Tom Doggett, training supervisor, comprised an in-depth classroom review of foreman's responsibilities coupled with on-the-job training. All those promoted have experience in the Pot-room Department at the plant.

Eighth Grade Ends Season With 6-2-1 Tally

Cameron Junior High eighth grade wound up season grid action with a 14-6 victory over Round Rock last week, according to Coach Max Morgan.

Junior high basketball will begin December 4 at Marlin with 7th, 8th, and 9th grades playing. Gametime is 5 p.m.

The win gave the eighth grade a 6-2-1 season record.

Steve Lopez scored the first touchdown in the RR game. George Whiteside ran over for the two extra points. Round Rock scored in the first half but failed to make the conversion.

Whiteside scored for Cameron in the fourth quarter on a pass from Ernie De La Rosa but the PAT failed.

Whiteside and De La Rosa were outstanding on offense. Defensive standouts were Paul Vaculin, Whiteside, Donald Townsend, Richard Williams, and Craig Friend.

Coach Morgan said the team "plays real well together — all of them promise to be an outstanding ball club later and I'm real proud of them."

The boys were cited by seventh grade coach Roger Williams last year for winning consistently, and they seem to be carrying on in the same tradition.

ALLEY ART and Craft Sale donations get admiring looks from St. Edwards Hospital Auxiliary sale committee workers Mmes. L. W. Stroup, Hilliard Thomas, Bob Ellett and Bill Burns. Sale time for the arts and crafts (including a bake sale) will be 10 a.m. to 5 p.m. in the alley beside Hefley-Stedman Motor Co. In case of bad weather the sale will be transferred to the Hefley-Stedman building.

Murdock Lists Cage Starters For Opener

Probable starters for Yoe cagers' opening game at Marlin Friday night are Robert Brasher, Johnny Steamer, Willie White, and Mike Zolsko or Ken McLerran, Coach Ron Murdock said Wednesday.

Rounding out the varsity are Mike Zolsko, Norman Truice, Jon Bailey, Phil Stinnett, Sam Knight, and Larry McClaren.

Junior varsity starters for the Marlin game will be Winfred Dobson, Cliff Fillmore, Dean Prokish, Carl Walton, Harry Perlin, and Emanuel Thomas.

Listed on the JV team are Ronald Gilbert, Don Shuffield, Jeff Manners, Bob Conoley, Bill Aycox, and Richard Johnson.

Brasher will be at guard, along with McLerran, Bailey, and Richardson. Forwards include White, Zolsko, Trobee, Zolsko, Stamer who will double at post with Stinnett, Knight, and McClaren.

Farm-City Week Emphasizes American Agribusiness Team

COLLEGE STATION. Americans work less to eat better than ever before. They spend less of their disposable income, now down to 16.5 percent, for food and get the best quality in the world, reminds John G. McElaney, Texas A&M University Extension economist.

And, he adds, Farm-City Week, November 21-27, is mighty good time for American food consumers to take note of this fact and express their appreciation for this "miracle of production."

It's true, notes the economist, that America's agricultural abundance is the result of teamwork.

St. Anthony School Aids Student Reading With New Program

Students at St. Anthony School in Cameron will have access to a new supply of enrichment books acquired through a leasing program, according to Sister Michael Marie, C.D.P., principal of the school.

The books cover such subjects as social studies, science, mathematics, history, art, music and sports, and include dictionaries and encyclopedias as well as books for general reading.

A wide assortment of books at varying reading levels is placed in classrooms, where students can make their own selections. Educational studies have shown that children read more if they can choose their own books. The new program allows them to take the supplementary books home.

The books are supplied on a leasing arrangement, rather than sold to the schools. Because the participating company, Responsive Environments Corp., replaces lost or damaged books the "rent-a-book" plan proves economical. All books in the program are published by accredited publishers, and cost is spread over a period of four years. The books become the property of the school after the leasing period.

US Border Patrol Seeks Applicants

The U.S. Border Patrol of the Immigration and Naturalization Service has an urgent need for physically fit young men desiring a career in Federal law enforcement work. This is a career opportunity for those who like action and outdoor work.

The Border Patrol is the mobile, uniformed enforcement branch of the Immigration and Naturalization Service. Its principal purpose is to prevent the smuggling and illegal entry of aliens into the United States. The border patrolmen, called Immigration Patrol Inspectors, work along international boundaries, although their duties are not necessarily confined to these areas.

Applications are now being accepted for the civil service examination for Immigration Patrol Inspector which will be held on Saturday, January 24, 1970. An additional examination is scheduled for April, 1971. However, those wishing to be tested in January must submit their applications before December 19, 1969.

Full information is given in Announcement No. WAM-911 which may be secured from Interagency Boards of Examiners and from many post offices as well as any office of the Immigration and Naturalization Service.

Information concerning the patrol inspector position and this announcement may be obtained from the U.S. Immigration and Naturalization Service, P.O. Box 279, San Antonio, Texas 78205, or by calling 512-255-5511, Extension 214.

Motor Vehicle Inspections Lag

AUSTIN. Colonel Wilson E. Speir, director of the Texas Department of Public Safety, said today that motor vehicle inspections in Texas are running almost 30 percent behind the inspection rate at this time last year.

"Unless the inspection rate increases, there are going to be some awfully long lines at inspection stations prior to the April 15 deadline," Speir said.

During the year which ended August 31, some 6.3 million vehicles were inspected in Texas. Since September 1, only 538,000 have received the required inspection.

The State Motor Vehicle Inspection Act was amended by the Legislature to provide that inspection stickers issued after September 1 will expire 12 months from the date of issue. However, the law requires that all motor vehicles display a new sticker before April 15, 1970.

ASCS News

By Alva E. Sanders
The 1969 Census of Agriculture will be conducted entirely by mail with no census takers involved. In January, 1970, every operator of a farm or ranch will receive a census form by mail and will be asked to fill it out and mail it back.

The decision to use the mail method is the latest in a series of plans to gain efficiency and economy by using the mails to the greatest possible extent in conducting all censuses.

The complete questionnaire for each farm, ranch or other agricultural operation will be completely confidential. All farmers are urged to cooperate in the census. The information obtained, without names or clues to identity, will be grouped in statistical totals and published by counties and States as well as for the entire Nation.

In addition to the number and acreage of farms, the agricultural census will ask farmers for an estimate of values of land and buildings, amount of time farm operators worked at off-farm jobs, and number of autos, trucks, tractors, combines and corn pickers.

Information about the 1969 Census of Agriculture is expected to be available in the Miami County ASCS Office by December 1. This information will help the office employees answer questions from farmers concerning the census.

The ASCS Office is one of the key agencies in the U. S. Department of Agriculture through which information on the 1969 Census of Agriculture will be handled.

County Swine Shortcourse Set

By J. D. Moore
Two county meetings will be held on the nights of November 24 and 25. The first meeting will be held in the district courtroom in Cameron, and the second meeting will be held in the Vo-Ag Building in Thorndale. Both meetings will begin at 7:30 p.m.

Current subjects related to the various phases of swine management, building materials, and swine health will be discussed.

Appearing on the program will be Dr. W. E. Thomas, swine specialist from A&M, Dr. R. M. Tittsworth, local veterinarian, and other resource people. Swine producers are urged to attend and the public is invited.

LOCAL DAIRY AWARD

Mr. and Mrs. Bill Harris, representing Elm Creek Dairy, received the 15 Year Award for participating in the State Dairy Herd Improvement testing program for the past 15 years.

The Dairy Herd Improvement Association is an organization of dairymen who have formed a cooperative association to service a production record keeping system. The members of the association elect officers and directors, employ a supervisor, establish the testing charges, enforce the DHIA rules, and conduct such other business as may be required.

Basically, the DHIA supervisor visits each dairy herd once each month, weighs each cow's milk,

runs a butter fat test, determines the feed, forage and pasture cost on each cow. This information on the entire herd including the dry cows, is sent to a central processing lab located in North Carolina where it is machine processed and returned to the dairymen.

For about a dime (give or take a little) the dairyman is able to have a profit return on each cow each month. Other agricultural enterprises could take a lesson from this system. With the current high investment cost, all agricultural producers should have a profit and loss statement more often than once a year.

Others attending the State DHIA meeting from the local association were Joe Schaefer, Supervisor, J. D. Moore, and Mr. and Mrs. Edwin Davis of Caldwell.

Other Milam county dairies participating in the program are Mr. and Mrs. Jerry Reik, Rt. 2, Rockdale, and Mr. and Mrs. H. L. McClaren, Rt. 3, Cameron.

The Potters are expecting a very important phone call.

In the years ahead, you'll be able to preset your telephone to transfer calls to the number where you're visiting.

Electronic switching—using a sophisticated computer system—will make this and many other new services possible.

For example, your phone will have a memory. By dialing just two digits of a

frequently called number, you'll activate that memory, then the phone will dial the remaining digits automatically. Electronic switching is fact, not fiction.

It's part of our program to plan today for tomorrow's communications needs.

We may be the only phone company in town, but we try not to act like it.

The Good Of Laneport...

Progress on funding the land purchase of dams at Laneport and North San Gabriel continues. Cong. J. J. Pickle advises the Senate has approved \$1 million for land acquisition. Laneport, though 20 miles southwest of Cameron, will have good effect on the Cameron area. It will mean additional availability of water for industry, water recreation and tourist attraction. It will be an attraction whose numbers appeal for this area will approximate the success of Somerville Reservoir, which over holiday weekends, has drawn up to 200,000 people by Corps of Engineers count.

What Others Say...

Diagnosis

Emil Zatopek has been expelled from the Czechoslovak Communist Party. The man who won three gold medals for Czechoslovakia in the 1952 Olympic Games, and played a key role until recently in the army's physical training program, has been found to be "unhealthy."

Saved, Not Paved...

Even Los Angeles, with its profusion of freeways, has now decided that some things are more important on the scale of social values than moving traffic faster. The city council recently agreed that a six lane roadway should not be built through 575 acres of greenery known as Elysian park. City engineers

And North San Gabriel will be helpful to the Georgetown - Round Rock area for similar attraction. It is impossible to measure the value in business and public recreation until a lake of these proportions is in an area. Cameron and Millam County easily will benefit in these ways, as well as flood control in the Little River Valley to the Brazos River. But overall effect will be an attraction of amazing proportions who recreate where water allows fishing, water skiing and swimming by the tens of thousands on weekends.

Rep. Kubiak Discusses New Code, Traffic And Safety Legislation

Rep. Dan Kubiak said he has received many requests for information on the new "Family Code" which has been in the news lately. Kubiak said he was one of 20 against the code in the Senate because of "liberalized the grounds for divorce too much."

to more so than any other segment of this bill," Kubiak said, adding that this segment "certainly places the county clerk in an awkward situation." He listed three points about the new bill: 1. The new laws don't change a thing about either teenagers or common law marriages. The new code will make it somewhat possible to keep track of common law marriages by setting up a registration system.

2. The common law marriage system has existed unchanged in Texas since 1896. 3. The code prohibits any type of marriage for boys less than 16 years old and girls less than 14. That's the way it always has been. TRAFFIC & SAFETY LAWS Two amendments to the Texas Motor Vehicle Safety Responsibility Act were discussed in Kubiak's newsletter. SB 12 authorizes the Department of Public Safety to suspend the drivers' license and registration of a Texas resident failing to comply with another state's responsibility law while traveling in that state. SB 201 provides that certain units of government may secure motor vehicle liability insurance under the assigned risk plan, but the bill was vetoed because it wasn't signed in the presence of legislative members. Changes in drivers license and accident report law include exemptions from drivers license requirements for some servicemen. SB 743 permits one who has had his license suspended to obtain a qualified license if it is necessary for him to pursue an occupation or trade. The license may be sought on a verified petition in the district court having jurisdiction within the county of residence. On a hearing concerning suspension or revocation of a driver's license, the judge is given authority to grant probation.

Jehovah's Witnesses Set Circuit Assembly

Jehovah's Witnesses of Cameron and vicinity were notified by their minister, Durwood Herbelin, that their next Circuit Assembly of ministers is scheduled for December 19-21 in Bryan, at the Bryan Civic Auditorium. Herbelin stated that twice a year congregations of Jehovah's Witnesses join together as a "circuit" and meet for three days. In addition to special talks and demonstrations, an opportunity is presented for those who qualify for the ministry to symbolize their ordination through a ceremony of public baptism. Over 100,000 new ministers of Jehovah's Witnesses were ordained in this manner during their past service year. Department stores and food chains are hiring and training nearly 5,000 disadvantaged persons in clerical, sales, merchandising, managerial, and warehouse occupations under the Job Opportunities in the Business Sector (JOBS) program.

TEC Draws Up Plans For Narcotics Education

By Vern Sanford

An anti-crime and narcotics education package is being drawn up by the Texas Education Agency for classroom use beginning in September, 1970. Detailed proposals for a statewide attack on crime and narcotics will be drafted. State Board of Education has authorized the agency to develop proposals requesting funds through the federal Juvenile Delinquency Prevention and Control Act of 1968, plus state and private sources. Program was initiated by the 61st Legislature, which directed the agency to develop "a course on the evils of crime and narcotics" which will be required of all students. Next planning step will bring 100 educators and other interested persons together in Austin for the first National Leadership Methods Laboratory on crime and narcotics. Laboratory will be directed by R. T. "Sonny" Davis, Austin attorney. Scope of the problem the legislature is trying to solve is illustrated with the latest figures compiled by the Department of Public Safety. During February through August, 1969, a total of 1,935 students in Texas in the 11 to 18-year-old age bracket were arrested on narcotics and drug charges. This includes 519 arrests for possession of marijuana, 243 for dangerous drugs, and 273 for narcotics.

Gov. Preston Smith turned from reading political polls to Indian signs last week and came up with a proposal for a new park in the Amistad Reservoir area near Del Rio. Smith made a day-long inspection tour by air, car and boat, primarily to view 8,000-year-old Indian pictographs in Seminole canyon. Impressed, the governor said the area must be developed as a recreation site and necessary steps taken immediately to protect primitive art from elements and vandals. Smith said he personally favors state park development but noted that legislation already has been introduced to create Amistad National Recreation Area covering some 63,000 acres of land and water. Parks and Wildlife Department Director J. R. Singleton said state funds could come from future sale of bonds from the \$75 million Texas recreation and park development bond program. However, Singleton favors waiting on federal action to establish a national recreation area and determination of funds that U.S. agencies will provide for access roads and other facilities. Smith said he plans to consult with Singleton and request the PWD chief to call all appropriate state department heads together at an early date to explore the state's role in area development.

OLD PHILOSOPHER

Dear editor: You'll never catch me standing in the way of progress or anything else if I can find a place to sit down, so it was with considerable interest I read in a newspaper last night that Washington has announced the creation of a Rural Affairs Council.

The purpose of the Council is to "revitalize the nation's small towns," to keep people from moving away to the big cities.

While some people argue that the reason small towns are such nice places to live is that a lot of people have left and gone to the city (why, I heard one man in town the other day say while it's true Houston is a better place because a good many people from Cameron have moved there, still you're to remember Cameron may be a better town because they left, but that's out of my province, I wouldn't care to say whether this is true or not), still I guess a little revitalization wouldn't hurt most towns, provided you didn't overdo it.

But the thing that has me pondering is that this council to revitalize small towns is made up of big city people.

I don't want to throw a damper on their plans, but if they've got some ideas that'll work, a good place to try them out would be in whatever city they happen to live. The way it looks to me, big city problems are about a thousand times bigger than small town problems, but still the move makes

since because if I was living in a big city I'd be hollering for an improvement in rural living. Anything to get the spotlight off of me. Moreover, the Council said that "60 per cent of rural housing is sub-standard," and I suppose it's right, if you use city standards. I mean, most rural housing is surrounded by fresh air and sunshine, and for a city man breathing smog and getting a glimpse of the sun between two tall buildings for 30 minutes only at noon, that's certainly sub-standard.

Come to think of it, I may be living in a sub-standard house myself. It's over a hundred years old, the roof needs fixing and the closest neighbor lives a mile away. But don't tell the Council about it.

Yours Faithfully,
J. A.

Looking Back—

50 YEARS AGO

Rev. Ernest Sansom of Clifton has accepted a call from the Maysfield Presbyterian Church and will enter upon his duties at that place December 1.

Dr. and Mrs. John Denson, Mrs. William Henderson and Mrs. J. F. Beckman were in Temple last Monday to hear Dr. Truett speak in the interest of the 75 Million Dollar campaign.

Mr. and Mrs. William Ross celebrated their Golden Wedding Anniversary at their home on N. Central Avenue.

every two years.

MILITARY LIQUOR SALES

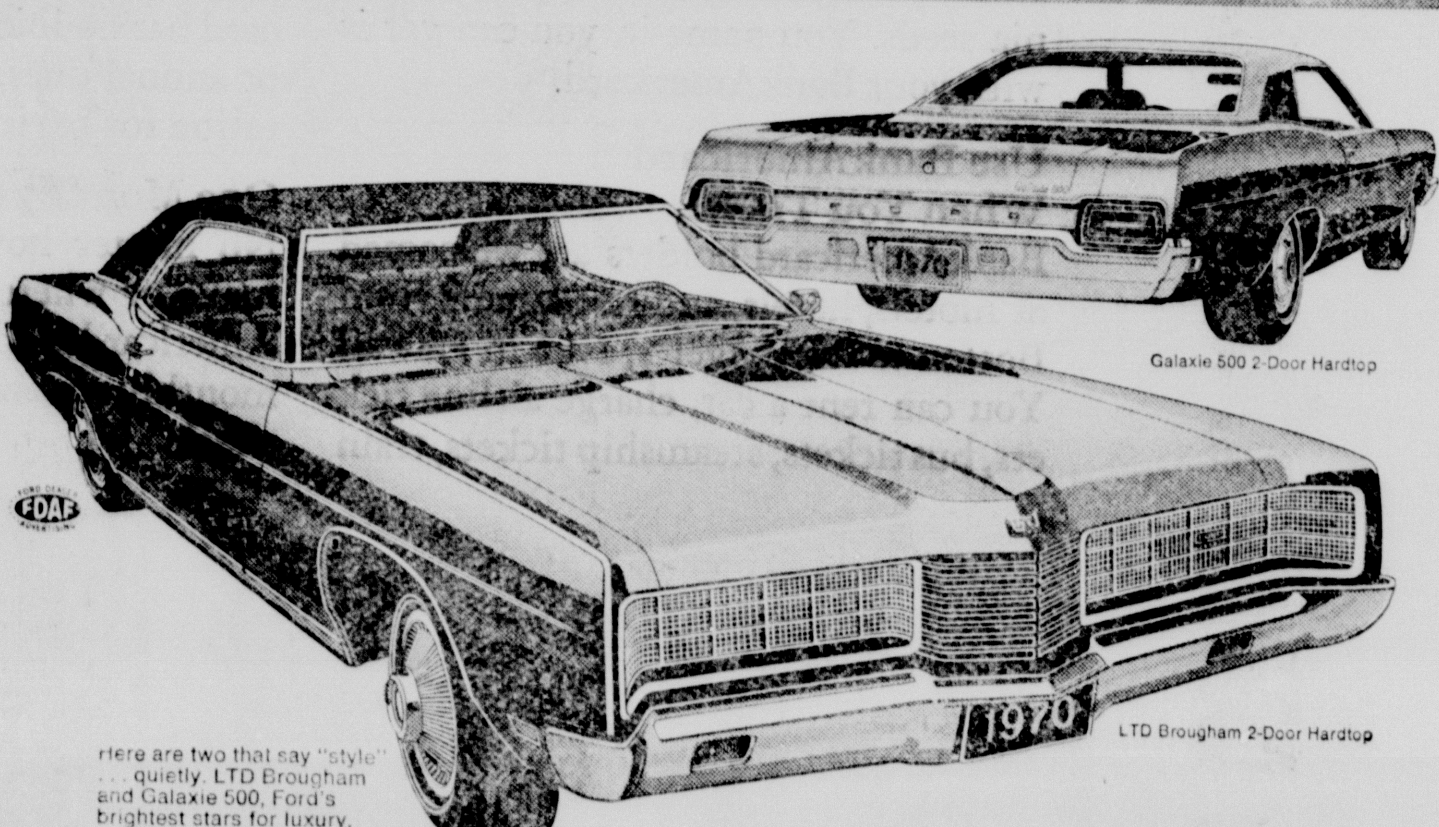

Liquor Control Board is reassessing its tax collection-enforcement limitations on federal military posts, apparently with intentions of increasing state revenues.

LCB ordered a staff study to determine those posts on which state jurisdiction has been yielded and those which have not. Members seemed to have an eye on collecting the state's new five cents a-drink service charge at clubs on military bases.

At the same meeting, Board turned down for the present the idea of a master club card which would create a system of guest reciprocity in participating private clubs. Proponents were offered a chance to get an attorney general's opinion on the subject, however, if they would officially request a permit in writing.

MEDICAL ASSISTANCE UNIT

State Department of Public Welfare's first medical assistance unit will begin field operations from San Antonio December 1, serving a vast 48-county area of South Texas.
